

## RACE RULES

Safety should always be on your mind. Yes, this is a race, but it is a fun race. Please think of your safety as well as your competitor's safety when competing in this event.

- Do not fold, bend, curve, or alter race number plates in any way. The number with the computer chip sticker on the back must be tied to the front of your bike without bending it so that it can be read. If altered you are subject to being disqualified. The other number must be pinned to your shirt or jersey in an area where you do not mind having someone touch you. Donut Volunteers will be marking how many donuts you eat on this race number.
- NO MOTOR ASSISTED BIKES
- NO aero bars
- Helmets are mandatory for this event.
- NO headphones allowed while riding. This is extremely dangerous for your safety and the safety of other riders.
- Although considered a race riders must still follow Michigan laws of the roads. This includes stopping at stop signs.
- For safety reasons we ask slower riders to move to the side of the roadway and yield to the group of riders behind them. This is for the safety of both the faster and slower groups of riders. Faster riders are asked to call out to slower riders and advise them of your passing intentions prior to overtaking them. The most accepted way of doing this is to call out "ON YOUR LEFT" as you approach a slower rider.
- For safety as well as courtesy to your fellow riders, if you have to stop and walk your bike up a hill, please do this on the right side of the road and leave the left open for those very fast climbers.
- Fat Tire Bikes – To qualify for the division your tires must be at least 3.7 inches (94mm) wide.
- You must be present for the awards presentation to receive your awards. We will not send awards to you after the race.
